

ALIENS

The remote planet where the crew of the Nostromo first encountered the Alien has now been colonized and an Atmosphere Processor set up to create a breathable atmosphere. When all contact with the colony is lost, Ripley, the Nostromo's sole survivor, agrees to accompany a squad of Space Marines on a sortie to save the base.

Your mission is to reclaim control of the base, keeping all crew members (CMs) alive (you will need to get them to the Queen's Chamber). You direct operations from the Mobile Tactical Operations Bay (MTOB) just outside the base.

BACK TO THE FUTURE
You control Marty McFly, who has travelled back to 1955 in a time-travelling DeLorean invented by Dr. Emmett Brown. Here he meets Lorraine, his mother, who seems to have fallen in love with him. Marty must get Lorraine together with George (who will be his father) so that they will fall in love as his father intended, or the future will be changed and Marty and his family will cease to exist.

Dr. Brown can be a help or a hindrance in this quest, and Bill Tannen, the school bully, will hit out at Marty whenever he has the chance. Until he has put things right, Marty can't go back to the future.
